

2. Vision & Mission

Vision

To enhance the knowledge in Mathematics through curriculum for developing Analytical and Logical thinking among the students in various applicable fields of Science, Engineering and Technology.

Mission

To impart the knowledge of different mathematical methods in Advanced calculus, Linear Algebra, Numerical Methods, Differential Equations and Probability & Statistics etc for enriching the computational ability in solving problems effectively and efficiently in multifarious fields of Science, Engineering and Technology particularly in Cryptography, Data Science, Cyber Security including Computer, Electrical, Civil and Mechanical Engineering fields.
