Event Title: **INDUSTRY EXPECTATIONS AND OUR PREPAREDNESS**

Speaker Name: Mr. Praveen Kamath Kumbala, General Manager HR Wipro.

Event Date: 27-Aug-2022

Youtube live link: <https://youtu.be/pJqHRfupURw>

Few points regarding the event:

1. Realize your potential: Learn what fields are looking for in young people with your kind of talent.
2. Get ready for achievement: Learn how to match the demands of the industry with your skill set.
3. Make contact with experts: To broaden your horizons, connect with influential people in the field.
4. Become more prepared by keeping up with the newest developments and learning about trends.
5. Develop your abilities by learning the information and resources needed to succeed in your industry.
6. Practical insights: Learn from seasoned experts and hear success tales.
7. Create connections: Establish relationships with mentors and peers to explore joint venture options.
8. Handle obstacles: Prepare yourself with methods to get beyond barriers in the field.
9. Global perspective: Recognize how market expectations differ throughout the industry.
10. Be ready and in control: Come experience a life-changing event that will shape your path to industry ready!

ABOUT THE COLLEGE
Bapatla Engineering College (Autonomous) was established by Bapatla Education Society in the year 1981 and is reckoned for its academic excellence in engineering & sciences. It is a constituent institution of Acharya Nagarjuna University and is one of the best private engineering institutions in the southern region. BEC offers graduate courses in 8 disciplines with total intake of above 1000 students. 5 post-graduate courses in CSE, CAD/CAM (Mech), PE (EEE), SE (CIVIL) and CESP (ECE). The College is a little away from the din and bustle of Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. All departments have well equipped laboratories in addition to the common facilities of workshops, central library, state-of-art central computing facility, sports facilities and Innovation Centres that houses research and testing facilities for industrial projects and technology labs to promote inter-disciplinary research activities.

ABOUT THE DEPARTMENT
The Department of Electronics & Communication Engineering is established in 1981 and have experienced, well-qualified, committed, and motivated faculty with specializations in various streams. Currently ECE Department offers a 4 year Graduate Program (B.Tech) in Electronics & Communication Engineering (ECE) and Post-Graduate (M.Tech.) Program in Communication Engineering & Signal Processing (CESP). The Department was accredited thrice by NBA of AICTE and NAAC.

OBJECTIVES OF FDP
The main objective of this Three-day faculty development program is to familiarize the participants with One of the significant developments in 5G communication is the use of Massive MIMO, UAV, Drone, Artificial Intelligence (AI), and Deep Learning (DL) for wireless networks. This FDP will be beneficial to the faculties and researchers working in the allied areas of wireless and mobile communication. The current building blocks of a wireless system mainly rely on AI/DL-based physical layer networks. Therefore, considering the importance of DL and AI in wireless communications, this Faculty Development Program (FDP) is planned to enlighten up-to-date review of wireless system concepts such as 5G and the role of DL techniques in these future wireless systems.
The FDP mainly focuses:

- Unmanned Aerial Vehicles
- DL based RF Signal Classification
- ML based IoT Systems

WOMEN EMPOWERMENT COMMITTEE
REPORT ON INTERNATIONAL DAY FOR VIOLENCE AGAINST WOMEN, 2022

DATE: 28-12-2022

A poster competition was conducted on November 25th 2022 for all girl students in H29, Main building and Mrs Lakshmi Lalitha madam acted as judge for selecting prizewinners. The participants were very active in presenting their solutions to eliminate violence against women and expressing ideas on the paper and in their presentation.

An awareness program for girls was conducted on Nov, 26th 2022 in Main building conference Hall from 11 a.m. to 1.00 p.m. with Mrs K. Santhi Bhushana Gopi, central Administrator, Sakhi one stop center, Guntur as chief guest speaker. She has enlightened the students with various laws and Government supporting schemes and funds and immediate help provided to the distressed women in the society. Hence the students and staff got awareness about importance of International day for violence against women.

The teaching Staff is dedicated to carrying out their duties in accordance with the requirements and has very good expertise from both an academic and research perspective. The department organizes FDPs, workshops, conferences and symposiums regularly to enrich knowledge of students and faculty and to promote good academic eco-system. The curriculum is meticulously crafted with stakeholders' and industry's needs in mind.

Theme of The Conference

The International Conference on Communications, Signal Processing & Computing (ICCSPC 2023) will provide an excellent platform for sharing knowledge and results in theory, methodology and applications of Communications, Signal Processing and Computing.

This conference looks for significant contributions to all major fields of the ECE, CSE and IT in theoretical and practical aspects. The aim of this conference is to provide a platform for the researchers, PG students and practitioners from both academia as well as industry to meet and share knowledge in cutting-edge developments in the field.

Call For Papers

Original and unpublished review/research papers are invited in Communications, Signal Processing and Computing from research scholars, students, academicians, practicing engineers and scientists from industry for presentation. Topics of interest include, but not restricted to the following areas: 5G-Communication, Data Communication, MIMO Communication, Microwave & Radar Communication, Antennas, Wireless Sensor Networks, Optical & Satellite Communication, Data Communication, Cognitive Radio, RFID, Information Theory & Coding, Software Defined Radio, Computer Networks, ANN, Adhoc Networks, Artificial Intelligence, Machine Learning, Deep Learning, Image, Video, Audio, Speech Processing, Digital Signal Processing, Pattern Recognition, VLSI Signal Processing, Signal Processing for Communications, Array Signal Processing, Bio Signal Processing, Statistical Signal Processing, Embedded Systems, IOT, Cyber & Network Security, Cloud Computing, Quantum Computing, Cryptography, Fog & Edge Computing, Big Data Analysis, Data Science, Biomedical Computing, Robotics, VLSI Design & Systems.

Papers Submission Guidelines

Prospective authors are requested to submit unpublished research papers in IEEE Double column format (less than six pages). All the papers must be free from plagiarism. Similarity index must be less than 15%. All papers must be original and not been submitted to any other conferences or journals. Accepted papers will be included in the Conference Proceedings with ISBN number if at least one of the authors register for the conference.

- **CONCLUSION:**
 - This system is mainly used to rescue children from borewells. Here the proposed system consists of Raspberry Pi, and a mechanical gripper, and the sensors perform their role in these operations.
 - In the past 10 years, a lot of lives have been lost due to falling into bore well because digging a pit beside the bore well is a very tedious and time-consuming process.
 - The rescue operation team using this technology is so safe and the rescue operation time is very less. Using highly advanced ICs with the help of growing technology this project can be successfully implemented. This can be concluded that the proposed system retains the lives of many who fell into the bore well in the future.

Bapatla Engineering College (Autonomous), one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 1981 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is a little from the din and bustle of Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programs in 10 branches of Engineering- AI , ML , Civil, Computer Science, Electronics and Communications, Electrical and Electronics, Mechanical Engineering which are thrice NBA accredited Electronics and Instrumentation, Data Science and Cyber Security Engineering which are accredited twice and Information Technology which is accredited once. The college also offers 5 Post Graduate programs in Communication Engineering & Signal Processing, Computer Science, Structural Engineering, Power Systems and CAD/CAM.

About the Department:

This Department was established in 1995 and now offering Diploma (DEEE) with an intake of 60, B.Tech (EEE) with an intake of 120 and M.Tech (Power Systems engineering) with an intake of 9. The department has Electrical Machines Lab, Computer Simulation Lab, Power Electronics Lab, Electrical Measurements Lab, Control Systems Lab, Micro processors Lab, Electrical Workshop Lab and Power Systems Lab, IOT Lab & Electronics design lab with state of art equipment. The major equipment includes Power Network Analyzer, DSP Based Drives, Digital Storage Oscilloscopes, Cable Fault Locator, Thermal Image Camera, Numerical Relay Test Kit and Lab Volt Electromechanical Training kit. The Professional Software's available include PSCAD, ETAP, MATLAB, PSIM and MIPOWER. To bridge the gap between Curriculum & industry by conducting various events which are planned well before the commencement of Academic year. In 2021 - 22 Academic year we got 131+ campus placements to the EEE students.

About the Program:

The Three - day hands on training program on "PCB Designing & fabrication" is aimed to provide knowledge about Complete PCB Designing using simulation tool to test Electrical & Electronics circuit in software environment and also its Fabrication. Software tools like LT Spice & KiCad & Proteus to make physical PCB at home so that any student can make project on his own.

Objective of the Program:

The Three - day hands on training program on "PCB Designing & fabrication" will enable the candidates to master the skill of designing PCB's at professional level and develop project at a phenomenal pace easily. One of the most required and sought after skills in the electronics industry is that of project development and PCB designing for various applications. These applications may vary from prototyping for a student mini project, to a highly advanced industry application. At the end of this course, candidate will be able to design a Printed Circuit Board.

Topics to be covered:

- ❖ Circuit Simulation with LT Spice.
- ❖ PCB Design with KiCad.
- ❖ Component Footprint Design.
- ❖ Integrated Library Design.
- ❖ Soldering of Components on to PCB.

Note: KIT will be provided to for every 3/4 Participants

The students of the department have bagged 5 times University First Ranks and all India 4th, 11th and 12th etc. in GATE so far.

About the Program:

This program will be a platform to train the members towards Design, Implementation & Control of Electrical Systems and provide an avenue for research in the various fields of Electrical Engineering.

Objectives of the Program:

To Train the Participants in

- Introduction to MATLAB, Basic Converters, Modelling and Simulation of Converters, Rectifiers & Inverters.
- Introduction to PV System Configurations, Modelling and Simulation of PV System Configurations.
- Introduction to Classical, Intelligent and Optimized MPPT Techniques, Modelling and Simulation of a few MPPT Techniques (Conventional and AI based)
- Introduction to Fuzzy logic controller, Modelling and Simulation of Electric Circuits using Fuzzy logic controller
- Integration of Renewable Energy Sources to Electric Vehicle Systems
- AI Applications to Transmission Line Protection
- IOT-Machine Learning Applications to Transmission Line Protection Schemes

Report on One week STTP on "Design, Implementation and Control of Electrical Systems using MATLAB"

A One Week Short Term Training Programme is conducted on the topic "Design, Implementation and Control of Electrical Systems using MATLAB" in EEE Department of EEE in Bapatla Engineering College, Bapatla from 03-01-2023 to 07-01-2023. Dr.Mikkili Suresh ,NIT Goa and Our Faculty Members Dr.G.Ravi Kumar, Dr.N. Ramadevi, Dr.J. Ravindra acted as resource persons for this event and addressed the students regarding the "Design, Implementation and Control of Electrical Systems using MATLAB". The President of Bapatla Education Society Sri.Muppalaneni. SrinivasaRao, Secretary of Bapatla Education Society Sri. Manam Nageswararo, Prinicipal Dr.Nazeer Shaik, Head of EEE Department Dr.G.Ravi Kumar, 20 teaching staff and 150 Outside Faculty Members 09 Research Scholars and 179 students participated in this program.

This program provided a platform to train the members towards the Design, Implementation and Control of Electrical Systems using MATLAB and provide an avenue for research in the various fields of Electrical Engineering. In this Program, trained the participants towards Design issues of Electrical Systems and controller design techniques. Educated participants about analysis and controller design techniques using MATLAB. Participants are familiarized on design implementation and control of various electrical systems using MATLAB. Participants were also trained towards how to write a research article.

On behalf of EEE Department Dr.J.Ravindra and Mr.N.Bala Krishna thanked the management,principal, supporting staff and participated students as concluding remarks of the program.

Report on 3-day workshop on “ New Trends in Electrical Power system ”

A three day workshop was conducted on the topic “New Trends in Electrical power system” in EEE department, Bapatla engineering college, Bapatla on 1st-3rd May, 2023. The following members are invited as resource persons for this workshop.

S.no	Date	Name of the resource person	Topic
1.	01/5/2023	Mr.M.Kiran, Deputy Executive Engineer SLDC,Vijayawada	Scada system in power networking
2.	02/5/2023	Mr.M.Durga Prasad, CE(Retd),APSPDCL.	Transformers
3.	03/5/2023	Smt.A.K.Rajeswari, Executive Engineer,AP Transco,Guntur	Gas insulated substations(GIS)

This program was aimed to equip and create awareness among the students with a comprehensive understanding towards latest advancements in the field of SCADA system in power networking, transformers and Gas insulated substations. The following topics such as “over view of power system SCADA, its architecture, its applications in electrical engineering, various testing methods of Transformers, overview of Gas insulated substation, differences between conventional substation and Gas insulated substation” were explored by the resource persons in the event. Around 200 students from 2EEE, 3EEE from Bapatla engineering college and 15 students from various colleges were participated and benefited in hybrid mode. Good material was provided by the resource persons. Enough time was given for interaction and queries from the students. Opening remarks were given by Dr.Nazeer shaik, Principal of Bapatla engineering college. Dr.G.Ravikumar, H.O.D of EEE department and co-convenor of the workshop Dr. K. Kamala Devi, of EEE department addressed the teaching staff and student participants in inaugural function. On behalf of EEE dept., we, co-conveners of the workshop Dr.K.Kamaladevi and Mr.K.Rajendra thank the Management, Principal, supporting staff and student participants for giving this opportunity to conduct the workshop successfully. H.O.D ends the event with his concluding remarks and good feedback was given by the students on this workshop. The list of student participants from Bapatla engineering college, various other colleges and faculty members are enclosed.

Benefited participants: Students, Faculty and Research scholars.

College Profile:

Bapatla Engineering College (Autonomous) was established by the Bapatla Educational Society in the year 1981 with a total intake of 180 students in EEE, ECE, CSE, CE, & ME branches. The present intake in B.Tech Courses is **1080**. College is having five PG programmes with intake of **108** and PG courses in sciences and Master in computer Application with a total intake of **270**

DEPARTMENT PROFILE:

EEE Department was established in the year 1995. It has a remarkable academic history of achieving University ranks, GATE scores and placements in both national and international organizations. NBA of AICTE accredited the department thrice so far. A few of these achievements are as follows

University ranks:

1st & 2nd in 1999, 1st & 5th in 2000,
1st & 3rd in 2006, 3rd in 2007, 1st, 2nd and 3rd in 2008,
1st & 3rd in 2009, 4th in 2010.

All India GATE Ranks :

12th-(2000), 4th-(2005),
11th and 26th-(2008), 47th-(2009)

Salient Features of Our Labs:

The labs of the department are equipped with state the equipment cost of **Rs1.46 Cr.**

The Major Equipment Includes:

- Dissectible Machine-Labvolt, CANADA
- Winding Kit- Labvolt, CANADA
- Power Network Analyzer-UNIPOWER, SWEDEN
- Universal Numerical Relay-Cspc, SPAIN
- Cable Fault Locator- SebaDynatronic, UK
- Thermal Image Camera-Flir System, SWEDEN
- DSP Based Drives-Techno Soft
- Transmission Line-Honalec Energy Systems
- PSCAD, ETAP, PSIM, MIPOWER, MULTISIM, MATLAB

About the Program:

This program will be a platform to train the members towards Design, Implementation & Control of Electrical Systems and become entrepreneurs in the field of electrical CAD design and also provide an avenue for research in the various fields of Electrical Engineering.

Objectives of the Program:

- To Train the Participants in
 - Introduction to AutoCAD Electrical and Interface
 - Project Manager Interface Accessing Project Files
 - Single Wires / Components Referencing Ladders Insert Wires Edit Wires Add Rungs Wire Set up Wire Numbers Source and Destination Signal Arrows Parent / Child Components
 - Multi wire and Circuit Dashed Link Lines 3-Phase Ladders Multiple Wire Bus 3-Phase Components 3-Phase Wire Numbering Cable Markers Fan IN/OUT Insert Saved Circuits' Copy /Move circuit circuit builder

A REPORT ABOUT ONE WEEK STTP ON 'ELECTRICAL CAD DESIGN'

A One week STTP has conducted on the topic 'Electrical CAD Design' in electrical department, Bapatla engineering college, Bapatla from 26th June to 1st July 2023. Mr Ram Teja, CAD Engineer, HIEE Hyderabad acted as resource person. He addressed the students regarding importance of CAD Design to an electrical engineering student and also he done practically that how they can design using CAD software. Head of Electrical Department Dr. G Ravi Kumar, Teaching, Second year EEE students and outer participants of total of 320 members participated in this programme. On behalf of electrical department Mr. Sai Goutham Golive thanked the management, principal, faculty and participated students as concluding remarks of the programme.

ABOUT THE INSTITUTE

The Bapatla Engineering College(Autonomous), one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 1981 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is a little away from the din and bustle of Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programmes in 8 branches of Engineering- Civil, Computer Science, Electronics and Communications, Electrical and Electronics, Mechanical Engineering which are thrice NBA accredited, Electronics and Instrumentation, Chemical Engineering which are accredited twice and Information Technology which is accredited once.

ABOUT THE DEPARTMENT

The Department of Electronics & Instrumentation Engineering was established in the year 1994. The department offers 4 year B.Tech. degree program in Electronics & Instrumentation Engineering with an annual intake of 60 Students. The Department is accredited thrice by NBA in 2003, 2007 & 2013 of AICTE. The Department is covered under TEQIP. The Department has 08 members of faculty (2 Professors, 3 Associate Professors, 3 Assistant Professors), and 3 members of supporting faculty. The faculty has teaching expertise in various specializations like electronic Instrumentation, Controls and Instrumentation, Communications, Digital Systems and Embedded Systems etc.

ABOUT WORKSHOP

Industrial Automation focuses on PLC based control of drives and systems. This may include various PLC programming techniques and applications of PLC, VFD and SCADA in industries. The main aim of the workshop is to provide hands on experience in these automation techniques which will enhance the future career for the participants. Following that the industrial experts will deliver interactive talks in the area relevant to PLC.

CONTENTS OF THE WORKSHOP

- ◆ Overview of Workshop
- ◆ Programmable Logic Controller (PLC)
- ◆ PLC Wiring & Programming
- ◆ Human Machine Interface(HMI)
- ◆ Supervisory Control And Data Acquisition (SCADA)
- ◆ Variable Frequency Drive (VFD)
- ◆ HMI and VFD programming
- ◆ Instrumentation
- ◆ Switchgear

REPORT ON FDP ON GOAL SETTING AND PLANNING OF THE YOUNG FACULTY ON 17-07-2022 AT

11.00 AM

An online interaction meeting of Alumni with the young faculty members of the Department of Mechanical Engineering was organized on Sunday 17th July, 2022 through Microsoft Teams platform at IST 11.00 AM. The purpose of the meeting was to enhance the avenues of Mechanical Engineering in the society. The meeting was attended by the Assistant Professors and Associate Professors of the department along with Prof. T.Nanchariah garu, Head of the Department and three external guests accounting to a total meeting strength of 21.

The external guests for interaction were Sri K.V.Ravi Kumar garu, Dean, Amara Raja Skill Development Centre, Tirupati accompanied with Sri Sai Babu garu and Sri Balaji Prasad garu. The following points were discussed.

1. At the outset Sri K.V.Ravi Kumar garu who has vast experience at different levels had informed that the interaction is for faculty members who are less than 35 years of age. He said that sky is the limit for Mechanical Engineering but people are in misconception about it.
2. The objective was to know each other, conduct SWOT analysis and set a goal for each faculty.
3. Knowing each other in terms of qualification, specialization, experience and vision (both personal and professional).
4. Conducting a SWOT analysis.
5. Goal setting for each of the faculty member and to be sent to K.V. Ravi Kumar garu within 3 to 5 days.
6. Discussed the importance of internal staff enrichment sessions.
7. Planning the short-term activities.
 - Social media activities-Linkedin 75 connections per week
 - One club/association/chapter opening
 - One live project
 - Five industry connections

Vision of the Department:

To become a center of Excellence in producing the graduates as professional Mechanical Engineers with a high-quality education, innovative and entrepreneurial skills to secure the society and industry needs.

Mission of the Department:

To impart high-quality education in curriculum and to build the students in their capacity and enhancing skills to make them globally competitive Mechanical Engineers.

 9. Fix a review frequency may be monthly or so only for those who are interested to join these programmes.
 10. Sri Sai Babu garu had interacted to conduct SWOT analysis and motivated the faculty members to achieve to bring the reputation to the department.
 11. Sri Balaji Prasad garu had interacted with the audience to bring any issues/problems so that they can be resolved.
 12. Sri K. V. Ravi Kumar suggested that each faculty must interact with at least Five (5) industrial experts so that lot of information can exchange between the institute and industry.
 13. The importance of a theme for Mechanical Engineering Department was sought.
 14. Few of the faculty members had raised the questions which were answered by the notable alumni of the department.
 15. The meeting is concluded the closing remarks that interested young faculty can interact with Mr. K. V. Ravi kumar regularly to update the present scenario in the field of Mechanical Engineering and to reach their goals.

**Vision of the Department:**

To become a center of Excellence in producing the graduates as professional Mechanical Engineers with a high-quality education, innovative and entrepreneurial skills to secure the society and industry needs.

Mission of the Department:

To impart high-quality education in curriculum and to build the students in their capacity and enhancing skills to make them globally competitive Mechanical Engineers.
To prepare the students by providing exceptional academic environment, leadership, ethical guidelines and lifelong learning needed for a long professional career.
To enhance the overall academic performance of the students gradually and thereby increasing their placement potential.
To build the institute-industry interaction by providing the internship programs.

**Report on 2nd International Conference on Mechanical
Engineering and Emerging Technologies (MEET 2023)**

The Department of Mechanical Engineering has conducted a 2nd International Conference on Mechanical Engineering and Emerging Technologies (MEET 2023) during 3rd & 4th March 2023. This conference provides a platform for academicians, researchers, students and industry persons to share their experiences and ideas related to various fields.

The conference was inaugurated by the Executive members of the Bapatla Educational Society, Principal, Chief guest, Convener, Coordinators and Co-coordinators of the conference. A total of 80 members were participating in the inaugural ceremony. Dr. T. Nancharaiah, Convener of IC-MEET-2023 presented proceedings of the conference. In the first day of the conference Sri. S. Gurunadha Rao, Deputy General Manager, Vizag Steel Plant, Visakhapatnam delivered a key note address on the topic of “Emerging technologies in Mechanical Engineering- Journey of Power sector” followed by the Oral presentations by the participants in session 1 and session 2.

In the second day of the conference Dr. Uday Shanker Dixit Professor, Department of Mechanical Engg., IIT, Guwahati- Assam. Delivered a key note address on the topic of “Modelling and Simulation of Manufacturing Processes” followed by the Oral presentations by the participants in session 3 and session 4. A total of 33 presentations were delivered in the all sessions in online and offline mode. Dr. J. Laxmi Lalitha, Co-ordinator of the conference convey the vote of thanks to all.

Finally, Sessions were ended with the closing remarks by the Dr. T. Nancharaiah, Professor & HOD Mechanical Engineering Department, Convener IC-MEET-2023 and feed back was taken at the end of Valedictory session and response from the participants was really gratefull.

Certificates for the participants were generated through a software and distributed without any discrepancies from the participants.

In this connection, we once again thank to the Management, Principal and Mechanical Engineering staff for their cooperation in the smooth conduction of the event.

Dr. T. Nancharaiah,

Presentations from Participants

The screenshot shows a Google Meet interface during a presentation. The main slide is titled "SOLAR ENERGY" and lists the following:

Advantages

- Green energy.....Reduce carbon emissions
- No fuel cost
- Solar panels low maintenance cost
- Can be installed anywhere

Limitations

- Weather dependent
- Power generation is intermittent
- Solar energy storage expensive
- Needs lot of spaces

The interface includes a "People" sidebar on the right with a search bar and a list of participants: Sameer Kumar Dev..., 20-405 Jaswarth, 20-411 CHIRANJEEVI, CVS Phaneendra, IC MEET 2023 Meeting host, IC MEET 2023 Presentation, Karamala Usman, nookaraju bulipe, and srulan reddy. The bottom status bar shows the time as 10:38 AM and the meeting ID as eih-pryb-vwd.

The screenshot shows a Google Meet gallery view with nine participants in a 3x3 grid. The participants are:

- Top row: IC MEET 2023 (video), Karamala Usman, Kadaru Sunil K Reddy (initials K)
- Middle row: srulan reddy, nookaraju bulipe, CVS Phaneendra
- Bottom row: 20-411 CHIRANJEEVI, sruthik yerram (initials S), You

The "Meeting details" sidebar on the right shows the joining info: <https://meet.google.com/eih-pryb-vwd> and a "Copy joining info" link. It also mentions "Google Calendar attachments show up here." The bottom status bar shows the time as 9:41 AM and the meeting ID as eih-pryb-vwd.

REPORT on Three-day National level Workshop on “**Outcome Based Education and Examination reforms(OBE&ER-2022)**” organized by IQAC, Bapatla Engineering College, Bapatla during on 03rd – 05th August 2022.

First of all, I would like to thank the Management, Principal for giving us permission to conduct the workshop in online mode in the concepts of Education and Examination. This workshop is aimed at knowledge transfer between Resource Person and the Participants. There is an overwhelming response in registrations and nearly 413 participants were registered to this event.

This workshop was held over the course of three days, and it had five sessions that were streamed live on both You Tube and Microsoft Teams. The workshop was started with an opening address given by the Principal, **Dr. Sk. Nazeer**, who was then followed by the Chief Guest, **Dr. Joshua Earnest**, and the Guest of Honor, **Dr. Sashi Kant Gupta** of NITTTR – Bhopal. Additionally, **Dr. P Sundara Kumar**, who is the Convener of IQAC, provided some opening remarks. Every session begins promptly, and on the very first day, the participants were given an introduction to the core concepts behind OBE and the competencies. On the second day, the speakers went over a comprehensive approach to the examination patterns, discussing each and every principle that is outlined in Bloom's and Dave's Taxonomy. The participants were given the duty of submitting the sample question paper, and on the final day, a comprehensive analysis was carried out on the assignments that were handed in by the participants.

Finally, the splendid threes day program was ended with the valedictory headed by both the speakers as chief guest. Feedback was taken during the valedictory and response was really appreciating. Certificates are generated through a software and distributed within two days without any discrepancies from participants.

In this connection, we once again thank the Management, Principal and IQAC Team members for their cooperation in smooth conduction of event. A detailed document on the conduction of workshop is herewith attached for your kind perusal.

OBC Assessment

All said and done, the success of OBE curriculum implementation lies in the assessment procedure and techniques

If you will continue to use age old question pattern to assess LOTS beginning with 5 'W's and 'H' as seen here, then your OBC will end up in a failure, disappointing the industry and other stakeholders .

Therefore, you have to use 'Application Level' Questions to assess HOTS for the attainment of COs
