## Criterion – VI

### **6. Governance, Leadership and Management**

#### 6.1 State the Vision and Mission of the institution

**Vision:**

To build centers of excellence, impart high quality education and instill high standards of ethics and professionalism through strategic efforts of our dedicated staff, which allows the college to effectively adapt to the ever changing aspects of education.

To empower, the faculty and students with the knowledge, skills and innovative thinking to facilitate discovery in numerous existing and yet to be discovered fields of engineering, technology and interdisciplinary endeavours.

**Mission:**

Our mission is to impart the quality education on par with global standards to the students from all over India and in particular those from the local and rural areas. We continuously try to maintain high standards so as to make them technologically competent and ethically strong individuals who shall be able to improve the quality of life and economy of our country.

The vision and mission of the institute are realized through the ever changing syllabus under the guidance of highly knowledgeable academicians, professors and engineers from industry to suit to the changing technological developments. Part of it can be achieved by installing the centers of excellence in the college. The centers include Microsoft Innovation Center (MIC), Bosch Rexroth Center for Competence in Automation Technologies, Siemens Center of excellence and Robotic Technology Center in the research park. These centers enable students and faculty to enhance their practical skills and knowledge. All the departments of the college are equipped with the state of the art laboratories which enable the student to solve real world problems. The syllabus is designed to enhance the knowledge base in diversified fields and made the student ready for industry.

#### 6.2 Does the Institution has a management Information System

NO

### 6.3 Quality improvement strategies adopted by the institution for each of the following:

#### 6.3.1 Curriculum Development

The institution accords highest priority to the curriculum development and its execution. It plays a vital role in the academic and professional careers of the graduates. The institution implements the following process to take care of the design and development of the curriculum.

- Constitution of Academic Council consisting of representatives from Universities, Industry, HODs and Professors.
- Constitution of Board of Studies (BOS) with Representatives from IITs, NITs, Universities, Industry and Research Organizations along with Senior Faculty of the Departments.
- Alumni surveys, Feedback from parents and employer responses are incorporated to upgrade, modify and introduce new topics relevant to the global economy in the production of various Goods and Services.
- Consultations among senior faculty regarding changes to be made to existing syllabus with the input from Alumni in informal discussions, suggestions from academic experts and Industry.
- The drafts are taken up for discussions at the Board of Studies meetings before the approval in the academic council and their discussions are made acceptable at large. Finally a comprehensive document stating the frame work of the curriculum is released and implemented.

#### 6.3.2 Teaching and Learning

All the faculty members make use of different methods to ensure effective Teaching – Learning activities. The lecture method constitutes a major part of the teaching exercise owing to the students who hail from rural areas in general and slow learners in particular. However every teacher incorporates time tested teaching practices which make the classes more effective, interesting and student-centric.

- All the faculty members maintain their respective course files that includes the course objectives & outcomes, syllabus including prescribed and reference text books, Lesson plan, previous question papers, assignment and sessional question papers, lecture notes etc.
- Faculty members use e-learning tools such as CDs/DVDs, Internet, and Power Point etc., in all courses.
- Field trips to industries, exhibitions etc., so as to update the skills of faculty as well as the students.
- The College motivates the Departments to organize Faculty Development Programmes /Workshops/Seminars/Conferences on a regular basis where the faculty can upgrade their intra as well as inter personal skills.
- For each theory subject, lecture plan is prepared by the concerned teacher to ensure that a uniform pace of teaching is maintained.

- The concerned HOD monitors the syllabus progress on a regular basis and reports the same to the Principal. Wherever, a deviation is observed, the HOD seeks clarification from the teacher concerned. If necessary additional classes are planned.
- The course is taught in such a way that the objectives are fulfilled and is completed as per schedule.
- Efforts are made to see that each student follows the fundamentals thoroughly.
- A faculty member in-charge of each section / a group of 15-20 students collects the academic data of the students in the internals as well as at the end semester examination.
- The Departments conduct class interaction & personal counselling; the suggestions from the students are discussed at length in the Departmental staff meetings. Necessary measures are taken to ensure greater excellence in teaching/ learning process.
- From the collected information and their performance in the sessional examination, slow and advanced learners are identified and remedial coaching is arranged during zero hours. Personal attention is also paid to the identified slow learners. Counselling is also conducted in the presence of their parents if necessary.
- The Department also collects the feedback from the students at the end of each semester to know about the teaching / learning of each subject through a questionnaire. Necessary measures are taken to ensure improvement in teaching / learning process in future.
- Feedback from alumni is also obtained through a questionnaire. The information is used to take proper remedial measures in the teaching methodology and making certain facilities more student-friendly to achieve the defined outcomes.

### 6.3.3 Examination and Evaluation

#### Examination:

There are significant reforms in Examination system.

- Credit system was introduced for the benefit of the students.
- Project works and assignments are made part of evaluation.
- 75 % attendance.

#### Evaluation:

The College follows a transparent evaluation system. The evaluated answer scripts of every sessional examination with comments are distributed to the students. All the students have easy access to the teachers and can seek clarification regarding the scheme of evaluation. Any discrepancies reported by any student are rectified before the marks statement is finalized.

Any grievance in the End Semester examinations is addressed to the Dean/Controller of Examination. The redressal of grievances regarding evaluation of the End Semester examination is available in two ways viz. Recounting of Marks and Revaluation of answer script. Therefore the student

may either opt for verification of marks or revaluation of the whole answer book. The student may submit his/her application within stipulated period from the date of announcement of results to the office of the Examination section.

The Answer script is Recounted /Revaluated by the expert appointed by Dean/Controller of Examination. The results of recounting/revaluation are announced through website.

#### 6.3.4 Research and Development

- The senior faculty members who have Ph.D. degrees are involved in decimation of their research findings into the curriculum.
- The elective courses, term papers and project works are designed to inculcate research aspirations among students.

#### 6.3.5 Library, ICT and physical infrastructure / instrumentation

Central Library is housed in a spacious building of plinth area of 2,188 sq meters. It has a collection of over 69,422 volumes related to all the branches of Science and Engineering. A large number of National (80) and International (311) journals and magazines are subscribed. Special volumes like Handbooks, Standard books, Manuals, Encyclopaedias, Technical reports, ISTE Learning Materials, Project Reports, periodicals, Non-Book materials and Conference Proceedings are also available to the students and teachers. Digital library service is also on the anvil.

- The library is fully automated with SOUL Software developed by INFLIBNET.
- Each Department is provided sufficient number of Computers with intranet/internet facility.
- Departments are provided with AC seminar Halls with ICT facilities to conduct guest lectures, seminars, workshops etc.,
- Each Department is provided 2/3 class rooms with LCD facility.
- Some of the Departments are provided with e-class rooms and Virtual Laboratories
- By conducting induction training program for young faculty.
- By organizing Workshops / Conferences / FDP's.
- Laboratories are equipped with modern software packages.
- e- Journals and e- books.

#### 6.3.6 Human Resource Management

- Collaboration with the industry/institution oriented activities between the industry and the institution.
- Two-way transfer of technology information and knowledge through collaborative programs, like Guest Lectures, Seminars, Symposia and other interactive programs.
- Exchange of visits by technical people in the industry to institute and vice-versa.
- Provide free access to knowledge resources of the institute to the Industry and vice-versa.
- Provide free access to laboratory and testing facilities available at the institute to the industry and vice-versa.
- Pool up the knowledge and expertise of the technical people of the industry and for mutually agreed execution of joint ventures/activities.
- Provide assistance/guidance for the project work of U.G./ P.G. programmes and for research work of mutual interest.
- MOU with NASSCOM, APSSDC.

### 6.3.9 Admission of Students

The State of Andhra Pradesh is having a centralized admission procedure. Common Entrance Test “EAMCET” for admission into UG, “PGECET” for admission into M.Tech and “ICET” for admission into MCA are conducted by APSCHE (a state agency), Govt. of Andhra Pradesh.

### 6.4 Welfare schemes for

Teaching	2
Non teaching	3
Students	National insurance

### 6.5 Total corpus fund generated

5 lakhs

### 6.6 Whether annual financial audit has been done

Yes ☒ No ☐

6.7 Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	External		Internal	
	Yes/No	Agency	Yes/No	Authority
Academic	No		Yes	
Administrative	No		Yes	

6.8 Does the University/ Autonomous College declares results within 30 days?

For UG Programmes      Yes ☒ No ☐

For PG Programmes      Yes ☐ No ☒

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

Examination:

There are significant reforms in Examination system.

- Credit system was introduced for the benefit of the students.

## **BEST PRACTICES**

The practices which have contributed for better academic and administrative functioning of the college. The institution promotes many best practices to improve the quality of education and teaching-learning process. It leaves no stone unturned to make the future of the students bright and excellent.

### **I. Best Practice-1:**

#### **Enhancing student skill set**

##### **Objectives of the practice**

In addition to the academic activities, the institute is making enormous efforts for all-round development of the students. The objectives are to develop & enhance the following skills in the students:

- Technical skills.
- Interpersonal skills
- Organizational skills.
- Conducting technical and cultural fest in the college at national level.

##### **The context**

The college has been working with the aim of making it a centre of excellence. Students from different levels & backgrounds need training to improve their technical as well as organizational skills. Considering these requirements, college is providing excellent facilities for the students to improve their skills and to achieve their career goals.

##### **The Practice**

- Eminent speakers from industry and prestigious academic institutes are being invited for delivering guest lectures on latest technologies.
- All departments are conducting technical events through their clubs / associations on current trends & technologies to improve the technical knowledge of the students.
- Students use the Internet facility beyond the working hours to learn about the latest technologies.
- E-Journals/Magazines are provided in the library to know about the new technologies and research trends.
- The college encourages the students to attend workshops / student meets / paper presentations to improve their technical and presentation skills.
- The college provides financial assistance to students to implement new ideas or thoughts as projects and encourages creative skills of the students.
- Training programs and workshops are being organized to promote experimental learning in the campus.
- Industrial visits are being arranged for practical exposure to students.
- Students are being encouraged to attend summer projects / internships in the industries/prestigious academic institutions to acquire practical knowledge.

- Each department organizes National Level Technical student meet regularly which helps the students to improve their interpersonal skills and time management for meeting the deadlines.
- The students play major role in the events annual day & fresher's day being organized by the college and inculcate the qualities co-operation, co-ordination and team work.
- Personality development programs and seminars are being conducted from the first year to improve communication skills & soft skills of the students.
- The institute is encouraging the students to become members of professional bodies like IETE, ISTE, IEEE etc., and various events are being organized under these professional bodies to improve their skills.
- The college is organizing various co-curricular and extra-curricular activities through student initiated clubs for enabling all round development of the students.

#### **Evidence of Success:**

- The change in the behaviour & communication of the students from first year to final year is an ample testimony for the success of the programs being organized.
- The prizes / awards won by the students in technical and other events emphasize the impact of the programs.
- The performance of the students in placements is an indication of the success of the programs being organized.

#### **Problems Encountered & Resources Required:**

##### **Problems Encountered:**

- No problems are encountered regarding finance because the college management is sanctioning sufficient budget for conducting various programs and for providing necessary resources.
- A few problems are encountered in the implementation:
- Adjusting academic schedule to accommodate the programs
- Providing slots in the time-table to make some of the events as regular activities

##### **Resources Required:**

- Extra working hours/days to schedule the programs
- Provision of the Internet, library, labs, seminar halls and sports kits to students of various sections / years The college overcame these problems by the co-operation of staff and students by providing suitable slots and staying beyond the working hours, if required.

## **II. Best Practice-2:**

### **Comprehensive Student Monitoring System.**

#### **Objectives:**

The objectives of the comprehensive student monitoring system are :

- To monitor the students regularity & discipline
- To enable the parents to know about the performance & regularity of their wards.
- To counsel and direct the students to achieve the intended goals.

**The Context:**

Inculcating discipline, punctuality and motivation among the students is the main objective in career building of a student. In this direction, the college has a well-established system to monitor the students' activity. The organizational structures, policies, and practices support monitoring the student's progress and commitment to learning during each semester.

**The Practice:**

- The college has an effective and automated Student Information System for recording students' attendance as well as performance in the internal Exams being conducted in each semester.
- The teacher takes students attendance in every class during the first five minutes and after the class enters the list of absentees in the academic activity register to enable the head of the department to monitor the students in each period of the day.
- The class in-charges prepare the monthly attendance of the students for each section and send the information to the parents of defaulters through proper channel.
- The following measures are being taken for improvement of the attendance of the students:-
- The concerned teacher enquires and counsels the student if he is absent for two continuous classes. The class-in charge enquires and counsels the student if he is continuously absent for more than two days and directs him to HoD for necessary action.
- The HOD warns the student if he is absent continuously for more than one week and informs the parents about his irregularity.
- The HOD calls the parents of a student if he is absent continuously for more than two weeks, enquires the reason and advises them to take care of their ward.
- The HOD forwards the details of a student to the Principal for further action if he is absent continuously even after informing his parents.
- Periodic meetings are conducted by the Principal with HODs to review The punctuality and regularity of the students.
- Weight age is given to attendance in internal marks to improve the students regularity. 5 marks are allotted for attendance in each theory subject in a graded manner.
- The class interaction committee meetings are being conducted twice in a semester for every class to know and to solve their problems.
- Every student participates in the events conducted in the college or other colleges with the prior permission of the concerned HOD.
- Disciplinary Committee of the college promptly curbs the indiscipline in the campus.
- Anti-Ragging Committee monitors the freshers by frequently visiting the sensitive areas within the campus and outside the campus.
- Additional duty is assigned to the faculty members to monitor the freshers from being affected by any sort of ragging in and around the campus.

**Evidence of Success:**

- The improvement in attendance of the students speak volumes regarding steps taken for monitoring the students.
- The decrease in detention rate justifies the mechanisms adopted for monitoring the students.
- The enhancement in performance of the students due to regular monitoring and discipline in the college is an evidence of success of the practice.

**Problems Encountered and Resources Required:****Problems Encountered:**

- No problems are encountered in forming various committees and conducting meetings due to proper distribution of load among the staff.
- A few problems are encountered in the implementation:
- Enquiring the student in the class, regarding his absence, wastes time for all the students in the class.
- Poor response of the parents for enquiries from the college
- More number of classes to complete the subject than actual required number of classes
- Extra efforts of staff and the HOD to counsel the students and to explain the parents about their role and cooperation in monitoring their wards.

These problems are solved with the total involvement of the Principal, the HOD & the staff and they are successful in making the parents aware of their role in building the career of their wards.
