ABOUT THE COLLEGE

Bapatla Engineering College (Autonomous) was established by Bapatla Education Society in the year 1981 and is reckoned for its academic excellence in engineering & sciences. It is a constituent institution of Acharya Nagarjuna University and is one of the best private engineering institutions in the southern region. BEC offers graduate courses in 7 disciplines with total intake of above 1000 students, 5 Post Graduate courses in SE (CIVIL), CAD/CAM (Mech), PS (EEE), SE (CSE) and CESP (ECE). All the departments have well equipped laboratories in addition to the common facilities of workshops, central library, state-of-art central computing facility, sports facilities and Innovation Centers that houses research and testing facilities for Industrial Projects and technology labs to promote inter-disciplinary research activities.

ABOUT THE DEPARTMENT

The Department is one of the oldest departments in the institute and it was established in the year 1981. The department secured the accreditation thrice by NBA. It has also attained the Institution of Engineers (India) recognition in terms of its excellent infrastructure, well equipped laboratories and high-quality teaching and learning process. The department is recognized as Research Centre by Acharya Nagarjuna University to which this institution is affiliated. It has lofty professional ambitions of producing students of the highest caliber with a set of dedicated and devoted faculty members. Considerable number of creditable GATE scores (All India first rank in 1997, 15th in 2005). The department has been ever inspirational to the budding civil engineering student fraternity as was evident from the IES best ranks secured by our alumni 89th rank in 2010 and 6th, 103rd ranks in 2011, University ranks (First and Second in 2004, first rank in 2005 & 2009, second rank in 2007 & 2008) are ample testimony to the academic standards maintained by the department.

HOW TO REACH

The college is situated at Bapatla on the GBC (Guntur-Bapatla-Chirala) Road about 75 km from Vijayawada and 55 km from Guntur. It is well connected by Road, Rail and up to Vijayawada by Air (Gannavaram Airport).

ABOUT THE CONFERENCE

The world has seen increasing growth in infrastructure development in the last decade. It is expected that in the next five years millions of crores will be spent on the infrastructure development and the role of civil engineers will become significantly more relevant. Therefore, it is very important to keep a pace with the recent/new innovations and developments in the field of civil engineering. This conference will provide a forum for academicians, researchers, practicing & consulting engineers working in the field of civil engineering and PG & UG students to meet and share new ideas, achievements and experiences. The recommendations of the conference will go to a long way in acquainting the participants with latest innovations and developments of the field. This program will deal with new trends/recent advances in civil engineering for infrastructure development.
