#### About BEC Bapatla

The Bapatla Engineering College (Autonomous), one of the seven educational institutions sponsored by the Bapatla Education Society, was established in 1981 with a vision to impart quality technical education and is affiliated to Acharya Nagarjuna University. The College is a little away from the din and bustle of Bapatla, a town with a historic and hoary past, about 75 Km. south of Vijayawada on Chennai-Vijayawada rail route. The college offers B.Tech. Programs in 8 branches of Engineering- Civil, Computer Science, Electronics and Communications, Electrical and Electronics, Mechanical Engineering which are thrice NBA accredited Electronics and Instrumentation, Chemical Engineering which are accredited twice and Information Technology which is accredited once.

#### Overview About Conference:

Industrial and organizational systems have become complex, non-deterministic, non-linear behavior. Modeling techniques address this complexity through various modeling techniques that use both hard and soft data, and different structural characteristics and causality. These modeling techniques help in conceptualizing and understanding the systems and help the managers to take better decisions. Therefore, this conference is intended to provide a platform for sharing the knowledge, views, developments and applications of systems modeling. It also initiates a discussion on future changes that may occur in industrial and social systems and the strategies for modelers and decision makers. The conference invites the managers, leaders, consultants, academicians and model developers and practitioners to join and share your knowledge, views and criticisms.
