

Minutes of the Autonomous Academic Council meeting held at 4-00 p.m. on 21-10-2011

Agenda:

- 1) To discuss inclusion of Industry oriented theory and laboratory Courses.
- 2) To discuss the establishment of Innovation & Incubation Centres.
- 3) To discuss the training of faculty by Industry experts.
- 4) To discuss Short term training programmes for faculty.
- 5) To prepare resource material by using CISCO DMS.

Outcomes:

The following points were discussed during the meeting held at 4-00 PM on 21-10-2011 in the Administrative building conference hall and the resolutions are as under:

The Academic Council decided to enrich the teaching-learning process in engineering education through various measures. Hence, it is decided to take the following actions.

1. It is resolved to provide effective tool based training programmes along with core subjects of every branch.
2. It is also resolved to start Innovation & Incubation Centres in all the departments in a phased manner.
3. It is further resolved that Industry experts shall be invited regularly to address staff on latest trends in technology. It is also decided that staff should undergo regular Industry oriented training programmes related to both core and software industries.
4. It is also resolved to send all faculty members to training programmes conducted by IITs, NITs, NITTR, etc.
5. It is also decided to organize workshops, conferences, short term courses, one in each semester with active participation of in-house faculty members.
6. It is decided to utilize CISCO Digital Media System to prepare and delivery video lectures for important subjects by faculty members of this college and subject experts from other premier institutions and Industry as well.
